1. Use snail to glue down the DSP ¼" from the right edge of the face of the card. If there is any overhang on the top or bottom, trim.
2. Glue down the pearl doily abutting one side to the left edge of the card and up about 1-1/2" from the bottom of the card
3. Stamp the inside of your card with any sentiment or image you like in either Rich Razzleberry or Memento ink
4. Emboss the Rich Razzleberry cardstock using the Lovely Floral DEF. Make sure you have as much of the image covered with the paper as possible and that the bottom edge is at the bottom of the folder so that the image is aligned with the top edge.
5. Cut the fishtail banner in the bottom of the embossed piece.
6. Mount the embossed piece to the card with standard Dimensionals so that ½ of it overlaps the DSP
7. Stamp the larger Whisper White cardstock with the flower outline stamp using the Memento Ink
8. Stamp the watercolor spot over the flowers, aligning the dip with the stem of the flower using Rich Razzleberry ink, you can use first generation or second generation stamping as you prefer.
9. Stamp the Thank you sentiment on the smaller piece of Whisper White in either Rich Razzleberry or Memento.
10. Mount the flower image to the card using the thick Paper Pumpkin Dimensionals
11. Use one thick Dimensional on the right-hand side of the sentiment, one standard in the middle and a glue dot or bit of snail on the left edge.
12. Add the Rose embellishment.
13. Tie the Baker's twine to the paper clip and clip it to the flower image.
